

Universities Allied for Essential Medicines presents...

Access to Essential Medicines for the World's Poor: The Role of Universities

Thursday, March 19th
12:30-1:30pm
UBC Campus - Chemistry 250

Speakers will discuss neglected diseases, essential medicines, and the access gap. They will go on to describe what can be done at the university level in order to ensure access to essential medicines for people in developing countries, UBC's commitment to global access licensing, and the challenges that lay ahead.

A casual lunchtime seminar with lots of opportunities to engage in dialogue and ask questions. No RSVP required, bring your friends!
